Moventum Asset Management S.A. is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier.

Date of production of the Key Information Document: 26/02/2024

## What is this product?

### Type

The product is a share class of the sub-fund MOVEtogether SICAV - Best of FT Dynamic, which is part of the MOVEtogether SICAV (the "umbrella fund"), an open-ended investment company with variable capital (société d'investissement à capital variable - SICAV) of the umbrella type governed by Part I of the Luxembourg Law of 17 December 2010, as amended (Law of 2010), and thus qualifies as a UCITS. The assets and liabilities of all sub-funds are segregated by law.

### Term

The sub-fund has no maturity date. Notwithstanding this provision, the sub-fund, in keeping with the articles of association, may be dissolved at any time by resolution of the board of directors.

### Objectives

#### Investment objective

The objective of the MOVEtogether SICAV - Best of FT Dynamic investment policy is to achieve higher long-term growth in the sub-fund currency while taking the investment risk into account. To this end, the sub-fund invests exclusively in target funds managed by Franklin Templeton. However, exchange-traded funds (ETFs) and index funds of other investment companies are added to a lesser extent. The sub-fund is actively managed. The composition of the portfolio is established, regularly reviewed and adjusted where appropriate by the management company exclusively in accordance with the criteria that are defined in the investment objectives / investment policy. The sub-fund is not managed using an index as a benchmark.

#### Investment policy

The sub-fund is an equity fund. A minimum of 65% of the net sub-fund assets shall be invested in equity funds and a minimum of 25% shall be invested in bond funds. These funds may be denominated in EUR as well as in another currency. The equity funds in the portfolio generally pursue a broadly diversified, global or regionally limited investment policy and may contain equities of companies with high, medium and/or low market

capitalisation. At the same time, the portfolio may include sector and/or theme-based equity funds as well as equity funds that invest in equities of companies based in emerging markets. The bond funds in the portfolio invest in high-quality government, mortgage and corporate bonds worldwide with a rating of AAA – BBB from recognised rating agencies. At the same time, the portfolio may also include bond funds whose investment focus is on bonds from issuers based in emerging markets and corporate bonds with a lower credit rating (high yields). The latter may have a rating below BBB from recognised rating agencies.

In principle, the sub-fund may invest in equities, bonds, money market instruments, certificates, other structured products, target funds and fixed-term deposits, depending on the market situation and the assessment of the fund management.

#### Dividend policy

The income remains in the fund.

#### Subscription and redemption

Investors may, in principle, redeem their shares on any banking day in Luxembourg, with the exception of 24 and 31 December. The redemption of shares may, in due consideration of investors' interests, be suspended if this proves necessary in exceptional circumstances.

#### Intended retail investor

The fund is aimed at all types of investors who pursue the goal of asset accumulation or asset optimisation and wish to invest in the long term. They should be able to bear losses up to the amount of the capital invested.

#### Depository

The depository of the fund is DZ PRIVATBANK S.A., société anonyme, with its registered office at L-1445 Strassen, Luxembourg, 4, rue Thomas Edison.

#### Further information

For the full criteria, please refer to the sales prospectus.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator is based on the assumption that you will hold the product for 5 years.

If you cash in the investment early, the actual risk may differ significantly and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

**Please be aware of currency risk** if your reference currency differs from the currency of the product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks not included in the risk indicator may be materially relevant:

- Liquidity risk
- Operational risk.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate and favourable scenarios shown illustrate the worst, average and best performance of the product and an appropriate benchmark over the last ten years. The markets could develop in an entirely different way in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 EUR	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	What you might get back after costs	3,560 EUR	3,890 EUR
	Average return each year	-64.40%	-17.21%
<b>Unfavourable</b>	What you might get back after costs	7,940 EUR	8,480 EUR
	Average return each year	-20.60%	-3.24%
<b>Moderate</b>	What you might get back after costs	9,610 EUR	10,170 EUR
	Average return each year	-3.90%	0.34%
<b>Favourable</b>	What you might get back after costs	11,220 EUR	11,110 EUR
	Average return each year	12.20%	2.13%

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this scenario occurs in the case of an investment between March 2015 and March 2020 with an appropriate benchmark being used for the calculation, since fund data does not exist for the entire history.

Moderate scenario: this scenario occurs in the case of an investment between July 2017 and July 2022 with an appropriate benchmark being used for the calculation, since fund data does not exist for the entire history.

Favourable scenario: this scenario occurs in the case of an investment between October 2016 and October 2021 with an appropriate benchmark being used for the calculation, since fund data does not exist for the entire history.

## What happens if Moventum Asset Management S.A. is unable to pay out?

The default of Moventum Asset Management S.A. has no direct impact on your payout, as the statutory regulation provides that in the event of the insolvency of Moventum Asset Management S.A., the special assets do not become part of the insolvency estate, but are maintained independently.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs, if applicable. The amounts shown here are illustrations based on an investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR will be invested.

	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	820 EUR	2,450 EUR
<b>Annual cost impact (*)</b>	8.2%	4.4% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.7 % before costs and 0.3 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

## Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	The entry costs amount to 5.00% (front-end load), which corresponds to a deduction of 4.76% of your investment amount. This is the maximum amount that can be withheld from your investment. The financial advisor will inform you about the actual value.	Up to 476 EUR
<b>Exit costs</b>	We do not charge an exit fee.	0 EUR
<b>Ongoing costs taken each year</b>		
<b>Management fees and other administrative or operating costs</b>	3.22% of the value of your investment per year. This is an estimate based on actual costs over the last year.	322 EUR
<b>Transaction costs</b>	0.22% of the value of your investment per year. This is an estimate of the costs incurred when we buy or sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	22 EUR
<b>Incidental costs taken under specific conditions</b>		
<b>Performance fees (and carried interest)</b>	There is no performance fee for this product	0 EUR

## How long should I hold it and can I take money out early?

**Due to the risk and return profile, we recommend a holding period of at least 5 years for this product.**

You can, however, return the product in compliance with the return modalities stated in the sales prospectus. Early redemption can have a significant impact on the risk and return profile. The redemption may be temporarily suspended if there are circumstances which require a suspension and this is justified taking into account the interests of the investors.

## How can I complain?

In case of complaints, you may write to Moventum Asset Management S.A. at 12, rue Eugène Ruppert, L-2453 Luxembourg, Luxembourg or by e-mail to [contact@moventum.lu](mailto:contact@moventum.lu). Further information can also be found on the following website: [www.moventum-am.lu](http://www.moventum-am.lu). Complaints about the person advising on or selling the product may be addressed directly to that person.

## Other relevant information

Further information on the sub-fund, the current sales prospectus with annex and the Articles of Association, and the most recent annual and semi-annual reports (all in German) may be obtained at no charge during normal business hours from the investment company, the management company, the depositary as well as the paying agent(s).

Other practical information and the current share prices may be found on the management company's website at any time and requested from the aforementioned institutions. Moreover, details of the up-to-date remuneration policy, containing a description of how remuneration and other benefits are calculated, as well as the identities of persons responsible for allocating the remuneration and other benefits, including the composition of the remuneration committee (should one exist), may be downloaded from the management company's website. A hard copy may also be requested free of charge from the aforementioned institutions. The management company's website is [www.moventum-am.lu](http://www.moventum-am.lu).

The tax laws in the member state in which the sub-fund originated may influence your personal tax situation. Please consult your tax adviser with regard to the tax consequences of investing in the sub-fund.

This key information document describes a share class of the sub-fund. The sub-fund forms part of an umbrella fund. The sales prospectus and the reports may contain information on all share classes of the entire fund mentioned at the beginning of this document. The assets and liabilities of all sub-funds are legally separate from each other.

It is in principle possible to exchange the shares of the sub-fund or share class for those of another sub-fund or share class. Details on any exchange possibilities and the associated costs may be found in the sales prospectus.

The investment company may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the sales prospectus.

Information on the past performance of the product for the last up to 10 years including calculations of past performance scenarios can be found free of charge at: <https://www.ipconcept.com/ipc/de/fondsueberblick.html>.

Further documents are also available on the management company's website at: <https://www.ipconcept.com>.
