### Investment Objective

The objective of the portfolio is earning a continuous income by investing mainly in bond ETFs. The admixture of equity ETFs aims in increasing the yield.

### Investment Concept

This ETF/index fund portfolio consists of ETF and/or index funds with the investment classes bonds (about 70%) and equities (about 30%) denominated in Euro, US Dollar or other currencies. In addition, this portfolio may contain up to a weighting of approximately 15% funds that are not ETFs or index funds, such as mixed funds, funds invested in alternative strategies and other funds. It should be noted that the portfolio's objective is not sustainable investment and the underlying investments in this portfolio have no binding obligation to take account of EU criteria for environmentally sustainable economic activities as set out in Regulation (EU) 2019/2088 and in Regulation (EU) 2020/852.

The portfolio does not have a dedicated ESG strategy.

### Investment Horizon

The portfolio is primarily targeted at moderate investors who have an investment horizon of at least five years.

### Risk Profile

The management aims to organise the portfolio in such a way as to incur a manageable risk. In addition to the typical risks associated with the ETFs or assets held in the portfolio (such as credit risks, interest rate risks), this portfolio has an exchange rate risk due to the different reference currencies of the ETFs contained within it as well as the diversification of the assets of these ETFs.

## Advantages of MOVEactive ETF asset management

### High-quality investment approach

**Investment process** – clearly structured, successful investment process without "soft" factors, and without single-person risk due to an established team approach.

**Reallocation** – quarterly adjustment of the portfolio structure to current market situation based upon the expertise of an independent investment committee of experts and Moventum Asset Management.

**Fund Selection Process** – product and vendor-neutral, fund selection process for the allocation of the various asset classes.

**Rebalancing** – automatic, quarterly rebalancing of the Moventum portfolios to match the original risk-reward profile of the portfolio.

### High transparency level of your capital investment

**MoventumAccountView** – via online account query, details of the current situation and performance of your investment is always available.

**Moventum Portfolio Report** – this quarterly report provides detailed information about your investment from the portfolio management team.
