

## Investment Objective

The objective of the subfund is to achieve a high level of long-term capital appreciation.

## Investment Concept

The sub-fund invests in equity funds denominated in EUR and other currencies (about 50% of the net sub-fund assets) and fixed-income securities (about 45% of the net sub-fund assets). The sub-fund may invest up to 10% of its net assets in real estate funds which are denominated mainly in EUR. It should be noted that the portfolio's objective is not sustainable investment and the underlying investments in this portfolio have no binding obligation to take account of EU criteria for environmentally sustainable economic activities as set out in Regulation (EU) 2019/2088 and in Regulation (EU) 2020/852.

The portfolio does not have a dedicated ESG strategy.

## Investment Horizon

The sub-fund is primarily tailored to growth-oriented investors who have an investment horizon of at least five years.

## Risk Profile

The sub-fund has a higher risk compared to a portfolio predominantly consisting of fixed-income funds. In addition to the typical risks of funds allocated in this sub-fund (such as credit risks, currency risks, interest rate risks), exchange rate risks may be incurred due to the different reference currencies in the funds allocated in the portfolio, as well as the diversification of the assets of these funds.

## Advantages of Moventum Plus Active Fund of funds

### High-quality investment approach

**Investment process** – clearly structured, successful investment process without "soft" factors, and without single-person risk due to an established team approach.

**Reallocation** – quarterly adjustment of the portfolio structure to current market situation based upon the expertise of an independent investment committee of experts and Moventum Asset Management.

**Fund Selection Process** – product and vendor-neutral, fund selection process for the allocation of the various asset classes through an external fund analysis company FondsConsult Research AG, Munich with excellent references.

**Rebalancing** – automatic, quarterly rebalancing of the Moventum portfolios to match the original risk-reward profile of the portfolio.

### Great Flexibility

**You have the choice** between 5 different Moventum fund of funds strategies depending on your risk-reward profile, your investment horizon and your investment goals.

**Flexible investment volume from 50 EUR** (one-time investment and / or savings plan)

### High transparency of your investment

**MoventumAccountView** – via online account query, details of the current situation and performance of your investment is always available.)

### Attractive pricing

**€ 0 deposit fee** (in MoventumClassic Depot, which is exclusively used for our fund of funds)

**€ 0 transaction fee**

**€ 0 redemption fee/exchange fee**
