

Investment Objective

The objective of the sub-fund is to achieve a high level of long-term capital appreciation.

Investment Style

The sub-fund invests in equity funds denominated in EUR and other currencies (about 50% of the net sub-fund assets) and fixed-income securities (about 45% of the net sub-fund assets). The sub-fund may invest up to 10% of its net assets in real estate funds which are denominated mainly in EUR.

Investment Horizon

The sub-fund is primarily tailored to growth-oriented investors who have an investment horizon of at least five years.

Portfolio structure according to asset classes Q4/2018

Equities - US Large Caps	(14.00%)
Equities - Europe Large Caps	(24.00%)
Equities - Japan	(1.50%)
Equities - Emerging Markets	(1.00%)
Equities - Opportunities	(9.50%)
Bonds - Euro High Grade	(23.33%)
Bonds - Euro High Yield/Emerging Markets	(14.44%)
Bonds - Specialities	(12.23%)

Risk Class

The risk is represented by the (annualized) standard deviation of the total portfolio return. The higher the standard deviation, the wider the fluctuations between the highs and lows of the fund. The risk of each fund is displayed by a bar that is divided into five equally weighted risk categories ranging from "low" to "high".

Risk Profile

The sub-fund has a higher risk compared to a portfolio predominantly consisting of bonds. In addition to the typical risks of funds allocated in this sub-fund (such as credit risks, interest rate risks), exchange rate risks may be incurred due to the different reference currencies in the funds allocated in the portfolio, as well as the diversification of the assets of these funds.

Advantages of Moventum Plus Active Fund of funds

High Quality Investment Approach

Investment Process - clearly structured, successful investment process without «soft» factors, and without single-person risk due to an established team approach.

Reallocation - quarterly adjustment of the portfolio structure to current market conditions based upon the expertise of independent investment committees and Moventum Research.

Funds Selection Process - product- and vendor-neutral, fund selection process for the allocation of funds via the use of the external fund analysis company FondsConsult Research AG, Munich.

Rebalancing - automatic, quarterly rebalancing of the Moventum Fund of funds portfolio to match the original risk-reward profile of the portfolio.

Great flexibility

You have the choice between 5 different Moventum fund of funds strategies depending on your risk-reward profile, your investment horizon and your investment goals.

Flexible investment volume from 50 EUR (one-time investment and / or savings plan).

High transparency of your investment

MoventumAccountView - via online account query, details of the current situation and performance of your investment are always available.

Attractive pricing

€ 0 deposit fee (in MoventumClassic Depot, which is exclusively used for our fund of funds)

€ 0 transaction fee

€ 0 redemption fee/exchange fee
