

As of 31/08/2020

## Investment Objective

The objective of the portfolio is earning a continuous income by investing mainly in bond funds. The admixture of equity funds aims in increasing the yield.

## Investment Concept

The portfolio is composed of bond funds denominated in British Pounds and other currencies (approximately 65%) and equity funds (approximately 30%). In addition, the portfolio can hold real estate funds that are generally denominated in Euros. A cash ratio of approx. 5% is held in the cash account.

## Investment Horizon

The portfolio is primarily targeted at moderate investors who have an investment horizon of at least five year.

## Risk Profile

The management aims to organise the portfolio in such a way as to incur a manageable risk. In addition to the typical risks associated with the funds or assets held in the portfolio (such as credit risks, interest rate risks), this portfolio has an exchange rate risk due to the different reference currencies of the funds contained within it as well as the diversification of the assets of these funds.

## Portfolio structure according to asset classes

## Advantages of MoventumPlus Active asset management

### High-quality investment approach

**Investment process** – clearly structured, successful investment process without "soft" factors, and without single-person risk due to an established team approach.

**Reallocation** – quarterly adjustment of the portfolio structure to current market situation based upon the expertise of an independent investment committee of experts and Moventum Asset Management.

**Fund Selection Process** – product and vendor-neutral, fund selection process for the allocation of the various asset classes through an external fund analysis company FondsConsult Research AG, Munich with excellent references.

**Rebalancing** – automatic, quarterly rebalancing of the Moventum portfolios to match the original risk-reward profile of the portfolio.

### High transparency level of your capital investment

**MoventumAccountView** – via online account query, details of the current situation and performance of your investment is always available.

**Moventum Portfolio Report** – this quarterly report provides detailed information about your investment from the portfolio management team.

This brochure is intended for information purposes only and does not constitute a recommendation for investment. The content is based on information sources which are considered reliable.
