

MoventumPlus Active Portfolio Global Dynamic (International Investor)

As of 2/29/2024

Investment Objective

The objective of the portfolio is to achieve high long-term capital growth.

Investment Concept

The portfolio is composed of equity funds denominated in US-Dollar and other currencies (approximately 70%) and bond funds (approximately 30%). It should be noted that the portfolio's objective is not sustainable investment and the underlying investments in this portfolio have no binding obligation to take account of EU criteria for environmentally sustainable economic activities as set out in Regulation (EU) 2019/2088 and in Regulation (EU) 2020/852. The portfolio does not have a dedicated ESG strategy.

Investment Horizon

The portfolio is primarily targeted at risk-oriented investors who have an investment horizon of at least five years.

Risk Profile

The portfolio is high risk. In addition to the typical risks associated with the funds or assets held in the portfolio (such as credit risks, interest rate risks), this portfolio has an exchange rate risk due to the different reference currencies of the funds contained within it as well as the diversification of the assets of these funds.

Portfolio structure according to asset classes

	%

Advantages of MoventumPlus Active asset management

High-quality investment approach

Investment process – clearly structured, successful investment process without "soft" factors, and without single-person risk due to an established team approach.

Reallocation – quarterly adjustment of the portfolio structure to current market situation based upon the expertise of an independent investment committee of experts and Moventum Asset Management.

Fund Selection Process – product and vendor-neutral, fund selection process for the allocation of the various asset classes through an external fund analysis company FondsConsult Research AG, Munich with excellent references.

Rebalancing – automatic, quarterly rebalancing of the Moventum portfolios to match the original risk-reward profile of the portfolio.

High transparency level of your capital investment

MoventumAccountView – via online account query, details of the current situation and performance of your investment is always available.

Moventum Portfolio Report – this quarterly report provides detailed information about your investment from the portfolio management team.
