What is this product?

Type

The product is a share class of the sub-fund MOVEtogether SICAV - Best of FT Balanced, which is part of the MOVEtogether SICAV (the "umbrella fund"), an open-ended investment company with variable capital (société d'investissement à capital variable - SICAV) of the umbrella type governed by Part I of the Luxembourg Law of 17 December 2010, as amended (Law of 2010), and thus qualifies as a UCITS. The assets and liabilities of all sub-funds are segregated by law.

Term

The sub-fund has no maturity date. Notwithstanding this provision, the sub-fund, in keeping with the articles of association, may be dissolved at any time by resolution of the board of directors.

Objectives

Investment objective

The objective of the MOVEtogether SICAV - Best of FT Balanced investment policy is to achieve higher long-term growth in the sub-fund currency while taking the investment risk into account. To this end, the sub-fund invests exclusively in target funds managed by Franklin Templeton. However, exchange-traded funds (ETFs) and index funds of other investment companies are added to a lesser extent. The sub-fund is actively managed. The composition of the portfolio is established, regularly reviewed and adjusted where appropriate by the management company exclusively in accordance with the criteria that are defined in the investment objectives / investment policy. The sub-fund is not managed using an index as a benchmark.

Investment policy

The sub-fund is a mixed fund. A minimum of 45% of the net sub-fund assets shall be invested in equity funds and a minimum of 45% shall be invested in bond funds. These funds may be denominated in EUR as well as in other currencies. The equity funds in the portfolio generally pursue a broadly

diversified, global or regionally limited investment policy and may contain equities of companies with high, medium and/or low market capitalisation. At the same time, the portfolio may contain sector- and/or theme-related equity funds. The bond funds in the portfolio may invest in high-quality government, mortgage and corporate bonds worldwide with a rating of AAA – BBB from recognised rating agencies. At the same time, the portfolio may also include bond funds whose investment focus is on bonds from issuers based in emerging markets and corporate bonds with a lower credit rating (high yields). The latter may have a rating below BBB from recognised rating agencies.

In principle, the sub-fund may invest in equities, bonds, money market instruments, certificates, other structured products, target funds and fixed-term deposits, depending on the market situation and the assessment of the fund management.

Dividend policy

The income remains in the fund.

Subscription and redemption

Investors may, in principle, redeem their shares on any banking day in Luxembourg, with the exception of 24 and 31 December. The redemption of shares may, in due consideration of investors' interests, be suspended if this proves necessary in exceptional circumstances.

Intended retail investor

The fund is aimed at all types of investors who pursue the goal of asset accumulation or asset optimisation and wish to invest in the long term. They should be able to bear losses up to the amount of the capital invested.

Depository

The fund's depository is DZ PRIVATBANK AG, Luxembourg branch, whose registered office is at 4, rue Thomas Edison, L-1445 Strassen, Luxembourg.

Please be aware of currency risk if your reference currency differs from the currency of the product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
