What is this product?

Type

The Product is a share class of the sub-fund MOVEtogether SICAV - Best of FT Dynamic, which is part of MOVEtogether SICAV (the "Umbrella Fund"), an open-ended investment company with variable capital (société d'investissement à capital variable - SICAV) of the umbrella type governed by Part I of the Luxembourg law of December 17, 2010, as amended (2010 Law), and thus qualifies as a UCITS. The assets and liabilities of each sub-fund are legally segregated.

Term

The fund has no maturity date. Notwithstanding this provision, the Fund may be dissolved at any time by the Management Company.

Aim

Investment objective

The objective of the investment policy for MOVEtogether SICAV - Best of FT Dynamic is to achieve higher long-term growth in the sub-fund currency whilst taking the investment risk into account. This objective shall be reached by exclusively investing into target funds of the Investment Company Franklin Templeton. However, Exchange Traded Funds and Index funds of other investment companies will be added to subordinate extent. The sub-fund is actively managed. The composition of the portfolio is established, regularly reviewed and adjusted where appropriate by the Management Company solely in accordance with the criteria set in the investment objectives / investment policy. The sub-fund is not managed using an index as a benchmark.

Investment Policy

The sub-fund is an equity fund. The investment in equity funds amounts to at least 65%, while the investment in bond funds equals at least 25% of net sub-fund assets. These funds may be denominated in EUR and in another currencies. The equity funds in the portfolio generally pursue a broadly diversified, global and regionally limited investment policy and may include both equities from companies with high, moderate and/or lower market capitalisation.

Sector-specific and/or thematic equity funds and equity funds that invest in equities of companies with headquarters in emerging markets can also be part of the portfolio. The bond funds in the portfolio can invest worldwide in government, mortgage and corporate bonds of a high quality with a rating of AAA – BBB from recognised rating agencies. Bond funds whose investment focus is on bonds from issuers with headquarters in emerging markets and corporate bonds of inferior creditworthiness (high yields) may also be included in the portfolio. The latter may have a rating below BBB from recognised rating agencies. The sub-fund generally has the option of investing in equities, bonds, money market instruments, certificates, other structured products, target funds and fixed-term deposits, depending on the market situation and assessment by the Fund Management. Detailed information on the aforementioned (and/or further) investment opportunities of the Fund can be found in the current sales prospectus.

Distribution policy

The income remains in the fund.

Subscription and Redemption

In principle, investors may redeem their shares on any banking day in Luxembourg, with the exception of 24 and 31 December. The redemption of shares may be suspended in extraordinary circumstances if this is deemed necessary in the interests of investors.

Intended retail investor

The fund is aimed at all types of investors who pursue the goal of asset accumulation or asset optimization and want to invest for the long term. You should be able to bear losses up to the amount of the capital invested. This product is also suitable for investors with sustainability preferences.

Depositary

The Fund's Depositary is DZ PRIVATBANK S.A., société anonyme, whose registered office is at 4, rue Thomas Edison, Strassen, Luxembourg.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator is based on the assumption that you will hold the product 5 years.

If you cash in the investment early, the actual risk may be significantly different and you may get back less.

The overall risk indicator helps you assess the risk associated with this product compared to other products. It shows how likely you are to lose

money on this product because the markets develop in a certain way or because we are unable to pay you out.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Other risks not included in the risk indicator may be materially relevant:

- Liquidity risk
- Operational risks

For more information, please refer to the prospectus.

This product does not include protection against future market developments, so you could lose all or part of the invested capital.

Performance Scenarios

The figures quoted include all the costs of the product itself, but may not include all the costs you have to pay to your advisor or distributor. It also does not take into account your personal tax situation, which may also affect the amount you end up with.

What you get out of this product in the end depends on the future market development. Future market development is uncertain and cannot be predicted with certainty.

The unfavourable, moderate and favourable scenario shown illustrate the worst, average and best performance of the product and the suitable benchmark over the last 10 years. The markets could develop completely differently in the future.

Recommended holding period:		5 years	
Example Investment:		10,000 EUR	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no guaranteed minimum return. You could lose all or part of the invested capital.

What are the costs?

The person selling or advising you on this product may charge you other costs. If this is the case, this person will inform you of these costs and explain how these costs will affect your investment.

Costs over time

The tables show amounts taken from your investment to cover various types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product performs if applicable. The amounts shown here illustrate an example investment amount and various possible investment periods.

We made the following assumption:

- In the first year, you would get back the amount invested (0% annual return). For the other holding periods, we assumed that the product would perform as shown in the moderate scenario.
- 10 000 EUR would be invested.

	If you exit after 1 year	If you exit after 4 years
Total costs	815 EUR	2,626 EUR
Annual cost impact (*)	8.2%	4.4% each year

(*) This illustrates how costs reduce your return each year during the holding period. For example, it shows that if you exit at the recommended holding period, your average return per year will be 6.7 % before costs and 2.3 % after costs.

We may split a portion of the cost between us and the person who sells you the product to cover the services provided to you. The latter will notify you of the amount if required by applicable laws.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The entry costs are 5.00% (front-load fee), which corresponds to a deduction of 4.76% of your investment amount. This is the maximum amount that can be retained from your investment. The financial advisor will inform you about the actual value.	Up to 476 EUR
Exit costs	We do not charge an redemption fee for this product.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	3,23% of the value of your asset per year. This is an estimate based on last year's actual costs.	323 EUR
Transaction costs	0,16% of the value of your investment per year. This is an estimate of the costs incurred when we buy or sell the underlying investments for the product. The actual amount depends on how much we buy and sell.	16 EUR
Incidental costs taken under specific conditions		
Performance fees	No performance fee is charged for this product.	0 EUR

How long should I hold it and can I take money out early?

Due to the risk and return profile, we recommend a holding period for this fund of at least 5 years.

You may, however, redeem the fund by following the redemption procedures outlined in the prospectus. Early redemption may significantly affect the risk and return profile. Redemption may be temporarily suspended if circumstances exist that require a suspension and this is justified taking into account the interests of the investors.
